Gladiolus elegans

For better flower-arrangements, table decoration and cutting, this new race of small-flowering Gladioli is extremely useful and may possibly develop to be the long expected answer for these purposes. The graceful flowers are of delicate soft shades and most elegant in form. They are quite different from the characteristic Primulinus-hybrids and have more open florets, which are half the size of the grandiflora varieties with the dainty habit of the dwarf varieties from which they are hybridized. Height about 2½ ft., early flowering and can be grown under the same conditions as all Gladiolus.

DAHLIAS

Dahlias are the royal representatives of the summer season and they are known all over the world as decorative garden plants. They have shown a remarkable increase in public favour in recent years because so many new and better varieties have been raised. Rich tints in every design of colour and strong stems make them invaluable for cutting as well as for garden purposes.

We are able to offer the following list of very choice and rare Dahlias, which should be of special interest to the real connoisseurs and fanciers. The roots offered are all top size and can be planted from the 15th of April until the end of May. They are very easy to grow and do not need any special treatment although they want a sunny position in the garden and some bone-meal is recommended.

Dec. = Decorative; S.C. = Semi Cactus; C. = Cactus.

Royal Dutch Amaryllis

(Hippeastrum)

The Amaryllis produce huge Lily-like flowers and with their unique beauty and grace they give immense pleasure and satisfaction. The three or four funnel-shaped florets are placed on the top of a tall solid stalk and grow about eight to ten inches wide at mouth. This genus has several qualities combined and its shades are most exquisite and lovely.

The Amaryllis can be had quite easily in bloom when placed in a warm spot in the living room with normal indoor temperature. Remember the base of the bulbs should be kept warm to stimulate the development of the roots.

Choice Seedlings Mixture, certain to give entire satisfaction because of their large blooms of breathtaking beauty, the shades being mainly red. They deserve a much larger popularity and to encourage their cultivation, they are offered at a special price.

Large bulbs: \$ **2.50** each; \$ **6.50** per 3

Acidanthera Murielae

(Abyssinian Wildflower)

A richly scented flower that has all the characteristics of the Gladiolus family, though the silver white florets are of quite a different habit and show in the centre a large deep maroon purple blotch.

They grow to a height of 2 to 3 feet and are of an extremely graceful appearance. During the winter the corms of the *Acidanthera Murielae* require storage in a warm, dry place.

Plant after 15th of April 3 inches deep and 5 inches apart, they take a long time to develop and do not flower much before September.

Acidanthera Murielae (See illustration).

60 cts. per doz.; \$ 4.00 per 100

Superb Begonias

This Genus deserves attention because of its great value for planting in any position of the garden. From June and onwards, these so often lost spots will be brightened by the Tuberous Begonias with their huge flowers of magnificent bright and pastel colours.

Culture: The best method is to start them in a cold frame. Plant in rich soil. Good drainage is essential and water cautiously until plants have shown considerable growth, then increase supply. When a little hardened off and when nightfrosts are no longer expected they should be planted out in the garden. Begonias can be planted either single or in beds one foot apart.

Lilies

High Quality Dutch Grown
Bulbs, Free from Virus

The Lily stands pre-eminent for its beauty, grace and performance and is not partic-

ularly difficult to grow, it may be left undisturbed for years while it increases in richness and display.

Culture: Lilies must not be allowed to dry out, but should be planted immediately on arrival at a depth of three times the height of the bulb in a well drained light loamy soil. No Lilies will thrive in full shade. The first season after planting Lilies may not flower profusely, but once established, they increase in richness and display. Cutting the dead stems in autumn is essential for good results the following year. Add a fresh top-dressing of old well decayed manure and rotted leaf-mould in early spring.

auratum platyphyllum, a species from Japan, often called the Gold Band Lily. This variety prefers a habitat with long, moist and cool growing seasons and a deep, rich, well drained soil. If given other conditions, the plant naturally will be short-lived. These lovely Lilies with their great, fragrant, waxy-white flowers, attractively spotted and with a prominent golden ray down the centre of each petal, flower in August–September. \$ 1.75 each; \$ 5.00 per 3

auratum platyphyllum Red Band Strain, a strain of magnificent broad leaved, vigorous garden plants made up out of the rare *L. auratum platyphyllum* seedlings that show a bright red band in the place of the usual golden stripe down the centre of each petal. \$ 5.00 each; \$ 14.00 per 3

auratum platyphyllum var. virginale, a vigorous and handsome, pure white form infrequently found amongst the seedlings of the true *L. auratum platyphyllum*. This is the most immaculate purest and most beautiful Lily that can be imagined. The very whiteness of the petals of this large flower seems to be intensified by the golden stripe down the centre of each petal. A wonderful garden plant. \$ 2.50 each; \$ 7.00 per 3

Bellingham Hybrids, a hybrid strain of Lilies, raised from native West Coast species. This strain of Lilies has more than lived up to hopes invested in the original crosses, since this group is most desirable for cut-flower purposes and informal or woodland planting. Ideally spaced on tall, slender, straight stems, the flowers are particularly long-lasting. The pyramidal flower-heads bearing up to 20 flowers, may be cut as the first buds open and will remain fresh until the entire spike is in bloom. The colour range is complete from clear yellow through the yellow-oranges to the bright orange-reds with scarlet-tipped petals. Most of the flowers are intensely spotted with brown or reddish-brown. Ideal for partial or light shade, they prefer a cool, light soil. \$ 1.25 each; \$ 3.50 per 3

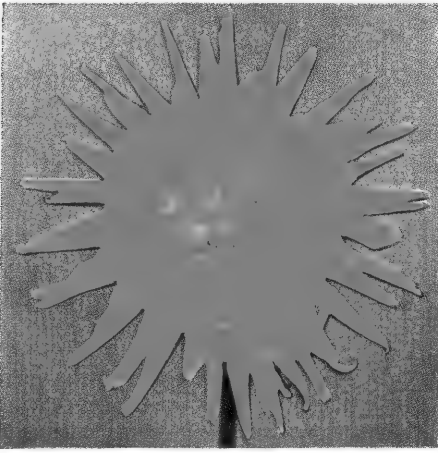

- Black magic strain**, a giant plant, with excellent colouring. Outside deepest maroon, pure white inside and good placement of the flowers. Moreover, these seedlings resembled the mother plant, Black Dragon. **\$ 2.75 each; \$ 8.00 per 3**
- Cinnabar**, one of our Mid-Century hybrids, strong stemmed, vivid maroon red, upright flowering. The flowers are borne on long pedicels, are well spaced and their maroon-red colour glows in the sun and shows remarkable depth. Fine for forcing, for growing in pots in the cool greenhouse, for planting in the light shade or full sun. A worthy companion to Enchantment. **\$ 1.50 each; \$ 4.25 per 3**
- Destiny**, one of the new Mid-Century Hybrids, a tall, cool purest lemon yellow that is most attractive. There are just enough brown spots on the petals to afford a beautiful contrast. As many as ten large flowers can be open at one time and carried well above the lustrous dark-green foliage on three to four feet tall stems. **\$ 1.25 each; \$ 3.50 per 3**
- Emerald Strain**, essentially a great improvement over the Green Mountain Hybrids, this lovely strain has flowers of an almost translucent, pure, cool white, with a flush of emerald green when first opening. The very large trumpets are borne in a pyramidal inflorescence of perfect form and with stout stems that do not need staking. **\$ 1.75 each; \$ 5.00 per 3**
- Enchantment**, the outstanding Mid-Century Hybrid. U.S. Plant Patent No. 862. F.C.C., R.H.S. 1955, F.C.C. Mass. H.S. This Lily is the most vigorous, prolific and healthy one that can be imagined. This variety is an upright Lily of excellent habit, with many well formed flowers of a vivid, Nasturtium-red colour. **85 cts. each; \$ 2.50 per 3**
- Fiesta Hybrids**, mixed colours. The plants are tall and bear as many as twenty, nicely-spaced, reflexed and nodding flowers in colours that range from pale straw-yellow through vivid reds, blazing oranges to deepest maroon-reds. All of the flowers are lightly sprinkled with small maroon-black dots. A sun-loving Lily that should be planted from 5-6 inches deep in full sunlight. These Fiesta hybrids have proven themselves to be a wonderful addition to our summer garden plants during July. **85 cts. each; \$ 2.50 per 3**
- Golden Chalice Hybrids**. The range of colours varies from clear lemon-yellow through the rich warm shades of gold and apricot-orange. Plant the bulbs in a warm, sunny location where they will get full sun, at least 6 inch deep. Extremely drought resistant, these hybrids are ideally suited for that warm, dry corner of the border, where they will flourish and flower freely with a minimum of care. June flowering, height 2½-4 ft. **85 cts. each; \$ 2.50 per 3**
- Golden Splendor Strain**, this is the newest, most outstanding, the most glorious golden yellow trumpet Lily. These Lilies usually flower in the last weeks of July; they stand 5 to 7 ft. tall when well-grown. The colours are of a uniform, deep and intense golden yellow. All of them show a deep maroon-brown stripe on the reverse of the petals and the buds too are a maroon-brown. **\$ 2.00 each; \$ 5.00 per 3**
- Golden Sunburst**, among the hybrids of L. Henryi some flowers, were found of a clear lemon-yellow colour. Selecting these pure yellows and intercrossing them with other Aurelian hybrids produced a strain that is true-breeding for colour and that contains many magnificent Sunburst-type flowers. These Lilies grow about 6 ft. tall and produce widely expanded, star shaped flowers on long pedicels. **\$ 1.50 each; \$ 4.25 per 3**
- Harlequin Strain**, an entirely new strain of hybrid Lilies. These Lilies come in new colours that vary from ivory-white, through pale lilac and old rose, to violet and purple, with intermediate shades of salmon, terra-cotta and amber-pink. Mature plants will carry from 12 to 15 flowers, all well recurved and borne on short pedicels on 5 ft. stems. **\$ 4.00 each; \$ 10.00 per 3**
- Harmony**, a wide-petalled, upright-flowering Mid-Century Hybrid in shades of rich and brilliant orange. Early flowering. The long pedicels and large flowers are ideal for large cut-flower arrangements. Excellent for forcing. **\$ 1.00 each; \$ 2.75 per 3**
- Mid-Century Hybrids**. A mixture of all colours and types. This group has been propagated as a mixture and we offer it at sharply reduced prices in order to acquaint as large as possible a group of gardeners with their beauty and usefulness. **85 cts. each; \$ 2.50 per 3**
- Moonlight Strain**, in contrast with the Golden Splendor strain, it consists entirely of chartreuse-green and apple-yellow-green coloured Lilies. There is no hint of brown on the reverse of the petals. The flowers may have a light greenish-white central vein and soft greenish yellow overall colouring. The flowers too are slightly different, a little more bowl-shaped, the petals slightly more pointed. Strong growing, hardy and robust, these Lilies blend with other summer flowering plants to make a rare picture in the garden. **\$ 2.75 each; \$ 8.00 per 3**
- Olympic Hybrids**. The present Olympic strain which is characterized by its extreme vigour and size, form, colouring and good placement of flowers. The colour range of all the parent plants is present in the Olympic Hybrids in addition to new combinations and types which include trumpets, soft fuchsia-pink and the popular cool, icy-green. The exteriors of the petals are delicately shaded with light greenish-brown or soft wine tint and in some instances are a pure, glistening white. June flowering. They do equally well in full sun or partial shade. **85 cts. each; \$ 2.50 per 3**
- Pink Perfection Strain**. Although in habit and in culture the plants are similar to the Olympic Hybrids, the flowers are shaded pink. This colour extends over the inner surface as well as the outer surface and is very beautiful. **\$ 2.50 each; \$ 7.00 per 3**

Ornithogalum

(Chincherinchee)

Ornithogalum thyrsioides: (Chincherinchee) a common hedgerow plant in the Cape of Good Hope. The native name chincherinchee is an onomatopoeia one, describing the sound which the breeze makes as it blows through the dried flower stems. It produces long fleshy leaves and a large umbel of pure white, brown-based flowers on a stout 12/18 in. stem in May-June. The best time for planting is April at a depth of at least 3 in. and 3 in. apart. They like a deep well-drained soil and a warm sunny spot in the garden. It is also splendid as a cold greenhouse flower and the blooms last remarkably when cut. (See illustration).

85 cts. per doz.; \$ 6.00 per 100

Lady Oxford, a perfectly formed variety, broad overlapping flowers, intense orange with a shade of pink on petals. A variety we personally admire and regard as outstanding in colour.

90 cts. per doz.; \$ 6.50 per 100

Lady Wilson, one of the best of its class, uniform bright orange flowers of an immense size and perfection, carried on a strong and tall stem. Colour, size and form not approached by any other Montbretia. 90 cts. per doz.; \$ 6.50 per 100

Rheingold, pure yellow and recommended as the purest variety in its class, with beautifully formed flowers, nicely placed on a strong stem.

\$ 1.00 per doz.; \$ 7.00 per 100

Polianthes tuberosa

The exquisite and rightly famous intoxicating scented *tuberosa* with 3 feet spikes of single or fully double creamy-white, flowers in autumn. A beautiful greenhouse plant or may be potted and planted out in a warm sunny border in summer.

90 cts. per 3; \$ 3.00 per doz.

Sprekelia formosissima

Giant Ranunculus

Ranunculus Grandiflora Choice Mixed Colours. You cannot really appreciate the bold and brilliant beauty of this new strain of Peony-Flowered Ranunculus until you have planted some patches in your garden to see the wonderful colours of this long stemmed and very free flowering new race. It contains nearly all colours of the rainbow. They require a sunny, well drained position in the garden and they can be planted from December until April. Plant 2 inches deep and give a covering during the winter.

65 cts. per doz.; \$ 4.50 per 100

Richardia

(Calla Lily, Zantedeschia)

These have gained great popularity and are indeed magnificent flowers for decorative purposes and they can be easily grown in pots.

Albo maculata, delightful small creamy-white flowers over bright green white-spotted leaves, extremely useful for pot-culture.

75 cts. each; \$ 2.00 per 3

Seedlings, a grand mixture of well formed flowers in different shades of primrose-yellow, sulphur to deep yellow, many of them beautifully marked with purple blotches in throat and all with more or less mottled leaves.

75 cts. each; \$ 2.00 per 3

Sparaxis Hybrids

(Specially prepared for summer flowering)

A very attractive dwarf little bulbous plant of the same habit as *Ixias*. The flowers are even larger in size and produce a fascinating combination of colours rarely seen in any other race of bulbs or plants. The colours range from salmon-orange to rosy-lilac and scarlet-red to creamy-white. They are particularly suitable for the rock- and Alpine-garden. **55 cts.** per doz.; **\$ 3.75** per 100.

Sprekelia

(Jacobean Lily)

formosissima (syn. *Amaryllis formosissima*), exquisitely shaped brilliant crimson-red flowers enclosing a bunch of golden stamens in throat. A beautiful bulbous plant from Mexico, flowering in June on a 1 foot stem. (See illustration page 32). **\$ 1.00** each; **\$ 2.50** per 3

Tigridia (Ferraria)

Very few flowers are more picturesque coloured or so beautiful. The bulbs should be planted in April, about 2 inches deep and 4 inches apart, in rich well drained soil and in a sunny position. After the flowering period in July and August they should be lifted and stored during winter in a dry place, carefully preserved from frost and mice, the latter are particularly fond of them.

Aurea, dark yellow.

Giant Rouge, pale carmine with large spotted centre.

Grandiflora Alba, large white.

Lilacina, pure lilac, very outstanding.

Lutea Immaculata, pale yellow with large centre.

Helen Mc. Gregor, a clear uniform pale blue variety and undoubtedly one of the best in the blues, 3 ft. \$ 1.25 each; \$ 3.50 per 3

Imperator, a very large flowering Iris of dark purplish red producing a well-branched long stalk of unusual strong habit. An excellent garden plant, 3 ft. 60 cts. each; \$ 6.00 per doz.

Lady Mohr, a fine variety with oyster white standards; slightly fluted falls, greenish yellow with reddish blotch at beard. Most attractive and delicate colour. Height 4 ft. \$ 1.25 each; \$ 3.50 per 3

Ola Kala, this variety seems to be a fixture in the top rated Iris and deservedly does. The colour is so intense yellow that it is almost on the orange side, a flaring lightly ruffled flower on tall stems, 3½ ft. \$ 1.00 each; \$ 2.75 per 3

Orange Glow, a very attractive variety with coppery golden flowers overlaid with orange, 3 ft. \$ 1.50 each; \$ 4.25 per 3

Oriental Glory, one of the most outstanding novelties of glistening mahogany-red, fall rich mahogany-brown with a most distinct violet blue blaze in centre, flowers are long lasting and of great substance. 3½ ft. \$ 2.00 each

Rovereto, enormous flower of warm violet, edged coppery bronze, producing a grand well-branched spike with 5 flowers out at a time, 3½ ft. 60 cts. each; \$ 6.00 per doz.

Scipio, a very attractive white Iris with a shade of pearly-grey, long substantial flower with broad flaring petals, 3 ft. \$ 1.00 each; \$ 2.75 per 3

St. Crispin, a handsome huge flower of soft yellow colour, a very free flowering variety of great substance, 2½ ft. \$ 1.00 each; \$ 2.75 per 3

Strathmore, a well-branched apricot pink Iris of high value with beautifully formed flowers of fine substance, it is considered to be the best in the pinks, 3 ft. \$ 1.00 each; \$ 2.75 per 3

Wabash, a fine contrasting Iris with pure white substantial standards and widely flaring bright violet-blue falls, edged white, 3½ ft. 75 cts. each; \$ 7.50 per doz.

White Knight, beautiful snow-white, a most free flowering Iris. We would consider this white Iris as the best for massing. Height 2 ft. 60 cts. each; \$ 6.00 per doz.

Zwanenburg, a charming variety of bronzy gold colour with chestnut brown flakes, blooms early, 2 ft. 60 cts. each; \$ 6.00 per doz.
